Hereafter called "1WAY".

**PREAMBLE:**

The Agreement comprises these General Sales Terms, the Account Opening Form, and the Pricing Brochure, which form an integral part of the Agreement; the entire set is hereafter called the "Agreement".

## **Terms of Services**

1WAY is designed to serve the hosting needs of small, independently owned and operated businesses in a single country. It is not appropriate to use our services to support large enterprises or internationally based businesses with a sustained demand that places undue burden on our systems or negatively impacts use by small, independently owned and operated businesses.

1WAY is a Open Source shared hosting service, which means that a number of customers sites and other email or storage services are hosted from the same server. 1WAY uses abuse controls to help ensure that use of our services does not adversely affect the performance of our system or other customers sites. It is not appropriate to use an account primarily as an online storage space or for archiving electronic files. All products they offer will be free for use, and free to share. If there are any questions, you may contact them using the contact information provided.

You also agree to keep relevant and up-to-date contact information with 1WAY, in case of emergency, or otherwise needed situation.

### **Voice Servers:**

If you use a voice service, you will be restricted by the owners rules and obligations. These rules may or may not change at any time, in which case you will be notified a week in advance, and upon exact time the new regulations will be in place. You are subjected to bandwidth caps (See Below)

### **Disk space:**

If you use your services consistently with the Terms of Service and these paragraphs, your site can grow as large as necessary to meet your small business needs, but to ensure a great experience for all, we will place some constraints on how fast you can grow. The vast majority of our customers sites grow at rates well within our rules, but our abuse controls may cause a brief delay while we evaluate if expansion is appropriate.

### **Data transfer:**

In most cases, if you use our services consistently with the Terms of Service and these paragraphs, visitors to your site will be able to download, upload, and view as much content from your site as they like. However, in certain circumstances, our server processing power, server memory, or abuse controls could limit downloads from your site. These are subject only to the Terms of Service and the rules that control how fast your site can grow (see above).

### **Email storage:**

You do not have to worry about hitting a storage limit if you use our services consistently with the Terms of Service and these paragraphs. 1WAY will increase your space along with your appropriate small business needs, but our abuse controls may impact the rate of growth or your folder size, and there may be a short delay while we assess your usage. In some cases, creating additional folders or subfolders will help ensure that the system works well for everyone.
